

Urban development project by legendary architect: **Ex-Michelin area by Renzo Piano**

- Building-integration Type: Skylight
- Location: Trento, Italy
- Color : LOF Stone Elegance

LOF's acclaimed Marble series Stone Elegance is applied to a 11-acre urban expansion project by legendary Italian architect Renzo Piano. This ex-Michelin project is considered to be among north Italy's most important development. With total more than 300,000 cubic meters space, this project adapts the most innovative eco-sustainable technologies including color solar. The total output is 300kw and completed in 2013. The so called "le albere" will consist of residential buildings, offices, sciences museum, shops, and a wide green park.
